

“Hello boys!”

Here’s a real Engineering Thrill for you

The *NEW* 1927

ERECTOR

“The World’s Greatest Toy”

Boys! Here’s the greatest book I ever compiled

In this book you will find the final story of my years of experience since I first invented Erector—the construction set which other engineers have been kind enough to call “the world’s greatest toy”—and which they consider one of the most astonishing mechanical phenomena of the age.

In this book I tell you how with Erector’s new construction parts you can build and operate (one after the other) over 1000 actual working models of Aeroplanes, Submarines, Ocean Liners, Light Houses, Machine Guns, Automobiles, Ship Cranes, Trains, Steam Shovels, Traveling Cranes, Wrecking Hoists, Trench Diggers, Locomotives, Hoisting Derricks, Cantilever Bridges, Suspension Bridges, Well Drillers, Power Plants and Hoisting Engines.

Think what a thrill you’ll get making these wonderful working models whiz and hum with the powerful Erector electric motor. The day you get your Erector (Christmas or any other day) will be the biggest day of your life. Send for my new book “ENGINEERING THRILLS” today and then tell your Dad. Don’t miss this chance. Make him realize what you really want by showing him the book and then taking him to the nearest toy store to see for himself. He’ll want to build models with Erector too. Just fill out the coupon below.

A.C. Gilbert

Chassis Built With No. 71½ Erector

New No. 71½ ERECTOR—\$15.00

Here’s the set I know will give you the greatest thrill you ever had. Fun! Oh, Boy! It’s the real thing, and there’s a thrill packed in every one of its 627 parts. Boys, in this great outfit there are hours of real sport waiting for you building automotive models. From this great assortment of distinctive, important and feature Erector parts you can build 554 models—wonderful automobile chassis, tractors, scooters, service cars, fire engines, hook and ladder, are only a few. It comes packed in a standard hardwood cabinet and includes a complete assortment of automotive parts, many in colors; also a 92 page illustrated manual with colored motorized section; a powerful electric motor, big red steel disc wheels with oversize balloon tires, fenders, radiator hood, bumper, springs, steering wheel, truck body, heavy truck axles, cab top, boiler, digger scoop—in fact, everything to make this set a world’s standard.

This set is a complete unit in itself, and a wonderful addition to any set you might own at present. Price \$15.00. At every store where toys are sold, or direct from The A. C. Gilbert Company, New Haven, Connecticut, U. S. A. if no store is near you.

Get your free copy of “ENGINEERING THRILLS.” Tells you all about Erector, exactly what the parts are in the different Erector Sets, how you can combine them to make over a thousand different working models. It explains the apparent magic by which with a given

number of Erector parts, you can build thousands of models. I will see that your copy is sent by return mail. Do it now. Then show your Dad. He will be as enthusiastic as you, I know, because I have talked with thousands of other fellows’ fathers. Just fill out the coupon.
