Donations are welcomed**

**Marriott at the Space and Rocket Center  
5 Tranquility Base, Huntsville, AL**

---

The National Meet of the A. C. Gilbert Heritage Society will open to the public Saturday July 8, 9:00 - 2:00 pm at the Marriott the at Space and Rocket Center 5 Tranquility Base, Huntsville, AL. Beginning in 1913 the A. C. Gilbert Co. produced Erector Sets and other science toys including Electrical and Chemistry. These "toys" reflected the technology of each era and started generations of boys and girls on paths to successful careers for over 100 years.

This year the society will put up mechanical displays on over 50 tables and have collectors from all over the country buying, selling and trading. We enjoy making these wonderful toys available to the public again. Excitement for the whole family.

For the latest information on the Society check out our web site. [www.acghs.org](http://www.acghs.org)

**FROM TOYS TO THE MOON!**
