

Hello boys!

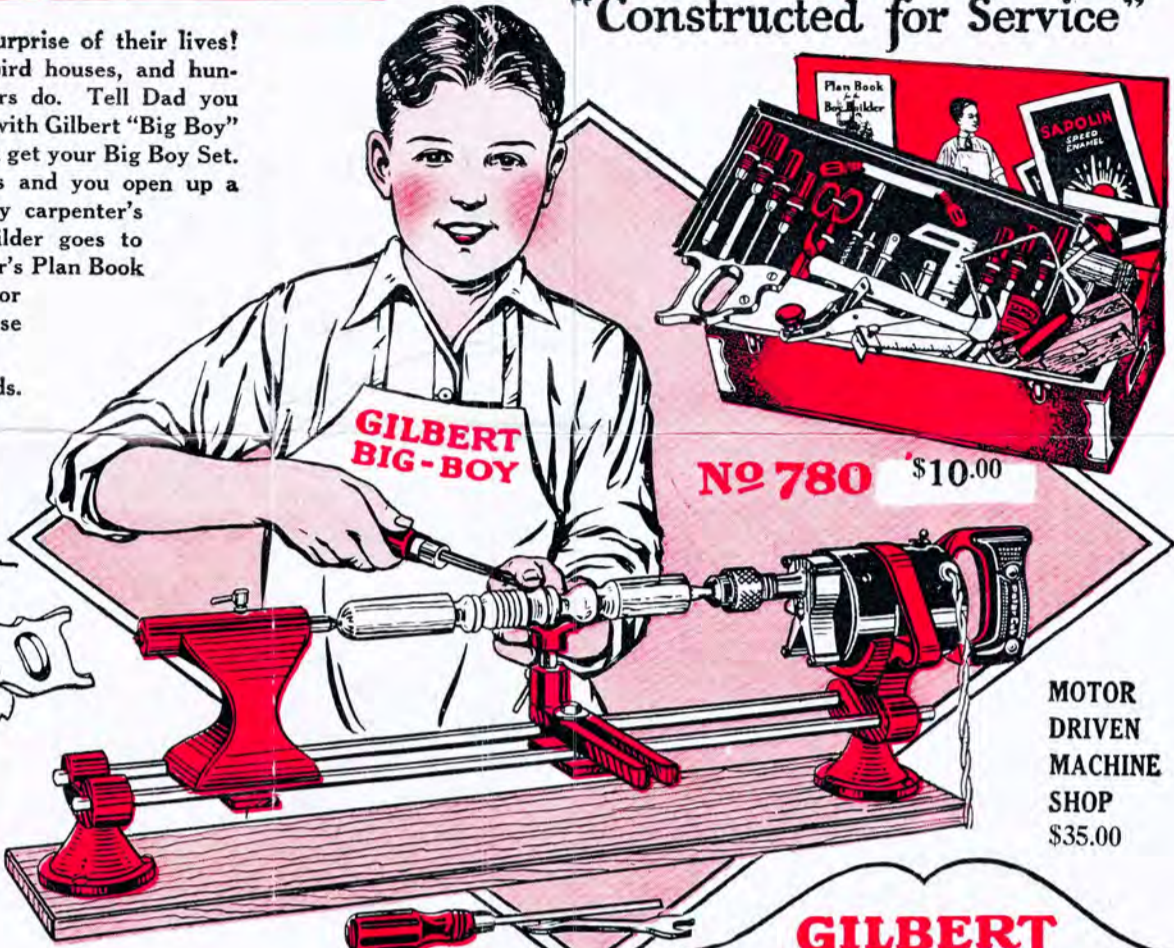

Tell 'em you built it with

GILBERT "Big-Boy" Tools

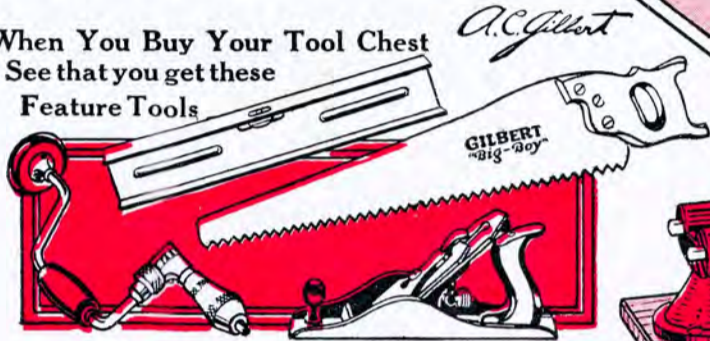

"Constructed for Service"

Boys, here's your chance to give Mother and Dad the surprise of their lives! Build with your own hands furniture, airplanes, toys, bird houses, and hundreds of other practical things—just like skillful builders do. Tell Dad you want to join the group of real fellows who build things with Gilbert "Big Boy" tools. Tell him today you'll start right in as soon as you get your Big Boy Set. Lift the lid of one of my big red brass-bound tool chests and you open up a whole new world of exciting thrills. Put on the sporty carpenter's apron, call in your pals and show them how a real builder goes to work. Oh, Boy! how their eyes will pop! My Boy Builder's Plan Book tells exactly how each job is done. And there's a tool for every purpose. I know what you need and I've built these tools for real service.

Find out right away how smart you are with your hands. Look over my Big Boy Tool Chests and machine shop outfits at any good store. Take Dad along. Tell him you want to be a full-fledged member of this happy group of builders. Pick out your set, get it home quickly, and start right in building wonderful things.

When You Buy Your Tool Chest See that you get these Feature Tools

Let's Go

If you want to make things hum, the thing for you is my brand new Motor-Driven Machine Shop, the greatest thing I've made for boys since I invented Erector. Yes sir, it's a complete scientific work shop—a combination portable lathe, demountable drill, emery wheel for grinding knives and sharpening tools. There's a real scratch brush for removing rough surfaces from metal, and a buffing wheel for finishing and polishing metal. And—Boy, here's news—this workshop's equipped with a 1/8 H. P. Universal Motor for A. C. or D. C., with toggle switch, cord and plug. It would take a whole page to tell you everything about this marvelous outfit. Send that coupon in to me and get the booklet that tells you all in words and pictures.

BOYS

This big chest of tools (Number 780) is the treasured possession of thousands of red-blooded boys. They wouldn't swap it for a million dollars. But you can get yours at any good store. There are 26 pieces in all—18 pounds of scientific fun—the kind of fun you'll never get tired of. A saw that bites its way right through wood, a plane that shaves like a master, a sturdy brace and bit, chisels, and dozens of other he-man tools for the boy builder. And two complete books that show clearly and exactly how to build hundreds of wonderful useful things. Now boys, be sure you get my big red brass-bound BIG BOY Tool Chest, because I know what you need and have spent ten years planning this fun for you.

A. C. GILBERT'S FREE PLAN BOOK
